COOLS THE ROOM WELL, NICE REMOTE, EASY TO INSTALL

Cools the bedroom well, not particularly noisy, the "no window" install makes it a breeze to install

Pros: Performance

Yes, I recommend this product.

GOOD LITTLE PORTABLE AC UNIT

We bought this portable ac unit about 8 months ago and are happy with our purchase. It keeps our room cool during the hot summer days and nights. For a small living room it does the job. If you have a bigger room, I'd highly recommend a bigger ac unit.

THIS IS THE GREATEST AIR CONDITIONER EVER!

SWEEPSTAKES ENTRY RECEIVED

I bought this air conditioner two months ago it's an 8000 unit for my room because my roommates do not use air conditioning in Las Vegas and it's too hot so I bought the air conditioning unit for my room and it has kicked butt it's been on every single day almost 24 hours a day and it Stills kicking butt I highly recommend this to unit to everyone

Pros: Style/Design, Features/Settings, Performance, Quality, easy to use

Yes, I recommend this product.

PORTABLE & EFFECTIVE!

I bought this a year ago and am extremely happy with. It effectively cools the 1st floor of my house, and if I want it concentrated in one direction versus another, I simply roll it to another direction. It's sturdy and I haven't had any trouble with it mechanically - even though it's running 100% of the time during summer.

Pros: Performance, Quality, easy to use

Yes, I recommend this product.

Answer this Question

NeilE · 2 months ago

We regret the trouble you have experienced with this air conditioner. It is recommended to check the air filter for any obstruction in air flow. It is also recommended to consider the temperature of the room, the temperature outdoors, and how the sun falls on the unit. Please contact our Customer Interactive Center at 800-243-0000 for additional assistance.

THE FLUID TANK SEEMS TO FILL UP EVERY 45 MINS OR SO WHICH MAKES IT HARD TO HAVE RUNNING CONTINUOUSLY, LIKE WHEN I'M SLEEPING BECAUSE I HAVE TO KEEP EMPTYING THE FLUID/WATER. IS THIS NORMAL AND CAN I BUY A HOSE TO ATTACH TO IT SO IT CAN DRAIN W/O STOPPING?

1
answer

Answer this Question

NeilE · 3 months ago

We regret the trouble you have experienced with this air conditioner. Has this been a matter of the tank filling to the point of deactivating or actually leaking water? Please contact our Customer Interactive Center at 800-243-0000.

HI THE AC UNIT SAID FL . WE DRAINED THE WATER UNTIL IT STOP. AND IT STARTS WORKING THEN IT KEEPS SAYING FL.

1
answer

Answer this Question

LGJoel · 4 months ago

After you have drained the LG 8,000 BTU Portable Air Conditioner, Model # LP0815WNR, try pressing the Temp ▲/▼ simultaneously on the unit (not the remote control) to see if that resets the unit and turns the 'FL' off. If not, please contact our Support Center at (800) 243-0000 for assistance...^IFV

HOW DO YOU EMPTY THE WATER IN THE MACHINE

1
answer

Answer this Question

LGJoel · 4 months ago

The LG 8,000 BTU Portable Air Conditioner, Model # LP0815WNR has a drain port located at the bottom in the back of the unit between the casters. When the internal water collection tank in the unit is full, 'FL' will appear in the display and the air conditioner will automatically turn off. You will need to unplug and either move it to a suitable drain location, or place a drain pan under the unit that will hold up to 3 pints of water, or move the unit to the outside to drain it. Remove the drain cap and rubber plug from the drain port and simply let the unit drain. Once drained, replace the rubber plug and drain cap and plug the unit back in. When turned on after being unplugged, the air conditioner will automatically reset to COOL mode with a temperature of 75°F...^IFV

HOW LONG IS IT OK TO CONSTANTLY RUN THE UNIT ON COOL?

1
answer

Answer this Question

NeilE · 4 months ago

It is fine to run the unit in "COOL" mode as much as desired. In "COOL" mode the unit should run until the set temperature is reached and the thermostat should cycle the compressor on and off to maintain the set temperature.

Not really an installation kind of person? Don't worry. Most of us aren't. That's why we make portable air conditioners. This one has 8,000 BTUs, multiple fan speeds and even a programmable 24-hour timer: Which means you can control the temperature even when you're not there. Cool, huh?
